EDUCATION

Batangas State University The National Engineering University – JPLPC Malvar <i>B.S. Information Technology – Major in Business Analytics</i> Awards/Honors: Dean's Lister 3x GWA: 1.57 Relevant Coursework: Data & Business Analytics, Advanced Database Management System, Analytics Techniques & Tools, Analytics Application & Modeling, Enterprise Data Management Capstone: GoBuddy: A Travel Platform That Promotes Lipa's Tourism by Leveraging Analytics Scholarships: DICT x Coursera Google Learning Program Scholar, JPCS-BSU x DataCamp Donates Scholar	Malvar, Batangas Aug 2022 – Aug 2026
--	---

EXPERIENCE

Commission on Elections (COMELEC) <i>Office Administrative Intern</i> - Processed 100+ voter applications using the voter registration system. - Provided office operations support by organizing and validating 1000+ registration forms.	Malvar, Batangas Feb 2026 – May 2026
--	---

PROJECTS

Supply Chain & Logistics Analysis US Candy Distributor Dataset <i>Google Cloud Storage, BigQuery, Data Studio, SQL</i> - Analyzed 10K records with 141K sales, found out that the average profit margin percent is 66.51%, indicating high profitability across different locations, revealed Secret Factory has the highest profit margin, revealed chocolate is the top-selling product, and California with the highest sales generated. - Stored data in a Cloud Storage Bucket, queried with SQL in BigQuery, and visualized with Data Studio.	May 2026
Employee Attrition & Performance Analysis Employee Dataset by IBM Data Scientists <i>Microsoft Power BI, Power Query</i> - Conducted a comprehensive data-driven workforce attrition analysis on 1.47K employee records, identified Sales Representatives the highest-risk role with 40% attrition rate, and Research & Development department as the primary attrition contributor with 133 attritions. - Discovered that the 3.15 average performance rating is below the ideal threshold, this indicates that most employees are barely meeting standards with 1.24K low performers and only 226 high performers.	May 2026
Sales Analysis & Customer Segmentation Walmart Sales Dataset <i>Microsoft Power BI, Power Query</i> - Analyzed 5K transactions with \$15.26M in sales, discovered promos boost sales by 11%, identified August as the top-performing month with \$2.02M sales, and flagged a sudden drop (55% decrease) in September with only \$0.91M sales. - Cleaned and transformed data in Power Query, fixing inconsistencies and structuring datasets for analysis. - Designed a star schema model and created DAX measures for the KPI-driven insights.	Apr 2026 – May 2026

TECHNICAL SKILLS

Languages: Python, SQL, Data Analysis Expressions (DAX)
Tools: Power BI, Power Query, Google Cloud Storage, BigQuery, Data Studio, Jupyter Notebook, Microsoft SSMS
Frameworks/Libraries: pandas, NumPy, Matplotlib, Seaborn
Techniques: Data Analysis, Visualization, Feature Engineering, SQL Querying, EDA, Database Design, ETL
Concepts: Business Intelligence, Data Modeling, Big Data, Data Warehousing

CERTIFICATIONS

Google Data Analytics Professional Prepare Data for Exploration (Course 3 of 9)	In Progress
DataCamp Data Analyst in Power BI	In Progress
DataCamp Python Data Fundamentals	Apr 2026
DataCamp SQL Fundamentals	Mar 2026
CISCO Networking Academy (NetAcad) Data Science & Analytics Essentials	Mar 2026
Test of Practical Competency in IT (TOPCIT) Level 2 – Certificate No. TL2506003642	Jan 2026
